French Persistent—Constantine Prepared to Offer Anything to Appease Allies End of Reign at Hand

The session of the City Council was prolonged to a late hour last night owing to the article of a matter that Mr. W. H. B. Storey had no control of. The tender of Mr. W. H. B. Storey for the collection of garbage at \$1400 per annum was accepted at the previous meeting of the Council and his duties were to have commenced on Tuesday the first of May. A contract had been prepared for Mr. Storey to sign but last night he stated that owing to the increased cost of wages and food for horses he could not sign the contract at the price proposed. It was however, still to go to work if the position of Sanitary Inspector was added at a salary of \$50 per month and \$100 for fuel.

The recommendation from the Board of Health that Mr. Thomas P. Wills be appointed as Sanitary Inspector at a salary of \$500 per month was considered. Wootley said that he understood that there were a number of applications for the position, who had offered to do the work for \$60 per month. The Council in view of the recommendation to economy and if it can secure a Sanitary Inspector for \$50 a month we should not pay \$60.

A DOUBLE INQUEST
At the Court of Sessions this evening, a double inquest will be held before Commissioner Dr. Farley of this town. The argument is to enquire into the circumstances of the deaths of Lineman John Osborne and Wesley Todd, who were struck by a high voltage electric line on Sunday last, while enacting their duties.

CASE ENLARGED
The case of Wesley Bernhart, who is accused of the theft of brass of the value of over \$500, from the Prime Time Quarries, Limited, was this morning by consent of the Crown and Counsel for the accused, enlarged for a week. Mr. C. C. Rogers for Crown, Mr. W. D. M. Sherry for accused.

John Osborne, another lineman of this city, was discredited, died yesterday. He was 37 years of age, and had been working at Millbrook, where the remains were sent, after being viewed by a coroner's jury and approved for burial.

Go Up To Higher Court

Thomas Hawkins, alias Charles King, and Thomas Neilson, the "be" brothers who were arrested a week ago for burglarizing Mr. B. D. Jones's car, were taken to the Court of Sessions this today, having a preliminary hearing before Magistrate Macdonald. Mr. Carraway represented the Crown and the accused were undefended.

Alfred Rogers and Wesley Todd, whose places of business were entered on the night of the 28th of April and who identified the articles destroyed, which were taken from the boys as their property. As a result of the hearing the accused were committed to jail at the next court of competent jurisdiction.

Mr. Frank Jones, a barber of Trenton, was also in court and identified some of the articles taken from the boys as his property. His place of business was entered on Monday night, April 25.

Cocoon Oil Makes A Splendid Shampoo

If you want to keep your hair in good condition, be careful what you wash it with.

Don't use prepared shampoos or so-called shampoos that contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful.

Just plain distilled cocoon oil, which is pure and entirely greaseless, is much better than anything else you can use for shampooing, as this can't possibly hurt the hair.

Simplicity makes your hair with water and rub it in. Use of two teaspoons will make an abundance of rich creamy lather, and cleanses the hair and scalp thoroughly.

The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get distilled cocoon oil at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.

DEATH OF MAJOR KENNETH CAMPBELL

Word has been received that Kenneth L. Campbell, son of Mr. Frank Campbell, has been killed in action. He was killed with the first contingent from Winnipeg, so had been in the war from the beginning. He was twice wounded and won the Military Cross and Military Medal. He was promoted from private to lieutenant, then captain and was appointed major last January. Major Campbell was a grandson of the late Lt.-Col. Campbell, who was connected with the Angus Hotel. He was killed in the Persian front. His mother was a daughter of the late Sheriff Taylor of this city, who now resides in Toronto.

The following account of Major Campbell, taken from today's Toronto Globe will prove of interest:

Major Kenneth L. T. Campbell, M. C., reported killed in action on Saturday, April 28, enlisted as a private with the 1st Battalion at Saskatoon immediately upon the outbreak of the war in 1914, going overseas with the First Contingent. He distinguished himself through the ranks and was gazetted Major in January last. On January 15, 1916, he was decorated by the King at Buckingham Palace with the Military Cross "for conspicuous gallantry in the attack on the German front line on the Meuse front, December 15, 1915, and for a gallant trench raid on November 18, 1916." He was twice wounded, and when discharged from the London hospital in October last he was requested to be allowed to return to his battalion in France, refusing leave and a staff appointment in England. Major Campbell was the grandson of the late Colonel A. A. Campbell of the late Sheriff O. Taylor, and the grandnephew of the late Sir Alexander

Optometry-Eye Service

Intelligent service often means the difference between sight in both eyes and sight only in one eye. Vision in the other rapidly diminishes.

Lenses which hold eyes straight and prevent partial blindness and a terrible deformity which only a really and adequate operation can help.

A little care and thought in selecting your eyes for the best and most intelligent service.

NIVELLE HITS ENEMY HARD

Total Number of the Tontons Cap-
tured is Over 700—Gains are
Important

PARIS, May 5.—Special—French
troops in a new offensive along the
Aisne have captured the villages of
Cousances and the first German line
of trenches in a series of attacks
of a week of two and a half miles north-
west in Rheims.

Cremone is at the eastern end of the
Vaudouze Plateau, the scene of much
desperate fighting recently, and its
possession by the Germans placed a
salient in the French front line at the
Chemin-de-Dames and the Aisne
River. The French not only straight-
ened out their line and gained a strate-
gic position of a further advance on
the Vaudouze Plateau, but also took
more than 150 prisoners.

Advancing northeast of Rheims on
front of two and a half miles, the
French carried the first German line
and took six hundred prisoners.
Cremone is six miles north of
Berray-Bas, which Berlin gives as
the western extremity of the French
attack line northwest of Rheims.
Berlin asserts that the French attack
was repulsed between the towns of
Brimont, about six miles north of
Rheims.

SITUATION IN RUSSIA TENSE

PETROGRAD, May 5.—Special—The
Council of war and the military de-
partment have accepted the Government
explanation of the May Day riots as
the result of a strike by the
barracks in Moscow.

The anti-Government street demon-
strations were completely broken up
and the Government troops were
able to restore order in the city.

RUSSIA'S POSITION ON SEPARATE PEACE CONSIDERED GRAVE

Foreign Minister States Such a Course Would be an Everlast-
ing Blot Upon the Country—States Peace Without
Contribution Will Have to Make Itself Clear

PETROGRAD, May 5.—The Provisional
Government has declined to modify
its attitude toward the Allies. The
Government declares Ministers are
prepared to resign their posts if they
are asked to do so. The Government
is not prepared to make any conces-
sions to the Allies. The Government
is not prepared to make any conces-
sions to the Allies.

Foreign Minister Mikolok, said, "It
will be an everlasting blot on our
history if there should be a possibility
of concluding separate peace. But
the Government is not prepared to
make any concessions to the Allies."

London, Jan. 20th, 17

Dear Mrs. Forbes Angus:

I am so glad to tell you the safe arrival of seven cases which were sent out on December 18th. The Queen's desire to be conveyed to you and all the kind workers like Mrs. McIntosh's grateful thanks for those splendid gifts, and the Queen asks us to send special thanks to the Women's Red Cross and Patriotic Association of Belleville for these very nice socks which they so kindly sent to the men at the front. I tell them how useful the socks are and we are asked for such quantities of them for the men at the front. The Queen desires me to say how much she appreciates your work and help. I wish you could see all the beautiful socks we get from the McIntosh and the men, and I can only say grateful and renewed thanks.

Yours sincerely,
—ALICE O'FLYNN—Active Press

PROTECTION GAINS IN ENGLAND

Sentiment Growing for Preferential Tariff Duties to Colonies—Germany May Be Shut Out Entirely

By Judson C. Welby
 LONDON, April 8.—Manchester and Lancashire, the leading centers of the textile time trade school of Great Britain, has just to present day circumstances, are somewhat by way of being captured by the protectionist propaganda. Manchester in particular is decidedly in a state of mind over the tariff question.
 The industrial center that for many years provided the backbone and muscle of the slaw of the free trade movement in this country has come to realize that to present day circumstances, may be means for decided mood.
 It is to judge what many of the new tariff reform agitation, as in England they call the movement for a protection policy.

There is a powerful sentiment in favor of some scheme for giving preference to Great Britain and the dominions as against competition, particularly that of Germany, after the war. Great Britain is in a firm position of granting preference.
 Before she, was the Germans were given a much better chance in Australia and in the colonies there is a determination that in the future Germany shall not be permitted such great advantages as it has enjoyed in the past.
 After the war started some atrocious disclosures were made concerning the activities of the Germans in India. Though it is known already to make it apparent that the supposedly peaceful unimpaired Germany commerce were that the agents of the political parties in many cases.
 Now both in the United Kingdom and in the colonies there is a determination that in the future Germany shall not be permitted such great advantages as it has enjoyed in the past.

Germany long ago adopted a policy of high protection, while it enjoyed free access to the markets of Great Britain, while Great Britain did not have the same privilege in the German market. The inevitable result was a great expansion of German business in Great Britain, frequently resulting in serious disaster to British industry.
 It may be set down pretty safely that whatever else may happen after the war there will be no return in the privileges and getting from Germany millions of them. England feels deeply and resents the rise of the shipping tonnage and the coal and textile industries of Germany to their present proportion on the foundation of particularly unfavorable conditions in British markets. It has come to be recognized that such a far handier and resurgent could never be permitted by any country and Britain is determined it shall not continue.
 Colonies May Get Preference
 But there are most grave difficulties about establishing any system of imperial preference; that is any scheme for giving the various parts of the empire reciprocal advantages while excluding Germany. The millions of them. England feels deeply and resents the rise of the shipping tonnage and the coal and textile industries of Germany to their present proportion on the foundation of particularly unfavorable conditions in British markets. It has come to be recognized that such a far handier and resurgent could never be permitted by any country and Britain is determined it shall not continue.
 The forthcoming Imperial Conference is expected to

IN ENGLAND

An illustration of the difficulties of this position has recently been afforded. The Government of India decided to impose a small protective duty on cotton goods from England. Such determination of the Indian Government required the approval of the Home Office, for India is not a self-governing dominion, as are Canada, Australia and the Cape. Almost at the same time that India made application for this privilege of a duty against British textiles the Indian Government announced its perfection of plans to make a contribution of \$500,000,000 to the empire's war chest.

[illegible]

There are those who, regarding themselves as the true imperialists, reply to this with the bald assertion that the British Empire is so big, so wealthy, possessed of such a vast variety of climates and resources and such a tremendous population that it could well afford to keep its good things to itself, as against the outside world and to develop its own power and resources independently. But British manufacturers and merchants and shipowners, who have spent generations developing trade with the whole world, do not want to risk being driven out of markets in which they have long been established, by reason of prejudice against a policy of preference inside the empire.

Moreover, the question of agricultural development in England becomes acute at this point. There is a strong school of English thought, which is now insisting that the permit itself is not enough. It must be made to become so completely dependent on its food supplies upon the outside world as it was before this war, and is to-day. Whether corn laws should be re-established in order to encourage British agriculture or whether there should be some protective scheme of guaranteed prices such as Lloyd George's Ministry has recently announced for certain staples is a question yet in the earliest stages of discussion and very far from any such crystallization of opinion as would make it a political issue. But it is as plain as a pikestaff that the time will come when issuance of this kind must be

The marvelous industrial development of Germany and the United States in the last half century is being studied by Englishmen as it never was before, and they are more and more wondering whether it is possible to maintain England as a sort of free trade manufactory washed by the protectionist fear of all the rest of the world. The incident of the Manchester protest against the proposed Indian

hibiting the coloring of sugar, and in cases where it is found, prosecution proceedings will be entered under the Adulteration of Foods Act.

During the last two years we were told that we could increase our business in certain sections of Canada, if we would color our yellow soft sugars, as the public were accustomed to the more brilliant color. We refused and are glad we did so. The recent action of the Government has since vindicated our judgment.

ORDINARY SPECTACLES are useless.

Not even ordinary spectacles, the glasses must be slightly accurate or they will be ineffective. Ordinary spectacles are such as harmful as so spectacles at all, and this is because of the fact that glasses are selected without expert guidance.

Unremitting Care is necessary in obtaining spectacles. Whatever the trouble may be, so that the best results are obtained, it is essential if the sight is to be saved from deterioration.

We examine the same rigorous care in slight cases as in more serious ones—which is the secret of our unending success.

HUNS RETALIATE ON FRENCH

Place French Officials at Industrial Points That are Subject to Aerial Attack

Special to The Intelligence
BRISLIN, May 10.—Official statement says—in a reprisal for the placing of a German general and his staff officers on French battle ships in the Mediterranean, German authorities have placed thirty of their most efficient officers and leading rank at points in Western France which are especially specially subject to aerial attack.

OFFICERS EXPECT A DECISION THIS YEAR

Hindenburg's Forces Torn and Reweaved, Cannot Sustain an Offensive

NEW YORK, May 9.—A cable to the Tribune, April 8, Draper says: The struggle on the Western front has reached a point where the attempt in the past few days where the attempt to chronicle decisions in a mere footnote.

The forces, battered, torn and bewildered, Hindenburg is now throwing every man of his shattered army into the struggle, hoping at all costs to prevent a further decisive action. The German high command is now making a big attempt of a movement, or the capture of positions has failed, and the British forces are locked fast in a fight in which the victory will be in the hands of ground gained, but in the men put out of action.

The gradual accumulation of gains in the history of this campaign, killing men at an "expensive" rate, and the victory follows in a manner reminiscent of the tactics of the medieval knight.

After the plan Hindenburg had for the offensive against the British, wait until he can organize his forces.

If Russia is in a position to hit this month, the blow will surely fall, and the Allies cannot follow. The war has drawn many eastern divisions into the battle. Italy too, may spring a surprise.

It would be foolish, however, to be too optimistic. The present battle is a costly business, and the present battle is a costly business, and the present battle is a costly business.

Fired Six Shots At Submarine

RECALLS FREEDOM TO DO WHATEVER

Its Fall Would Mean a Far-Reaching Retirement of German Forces at a Critical Junction of Fighting

LONDON, May 10.—Special.—The desperate effort of the Germans to recall freedom, in British military opinion, as voiced yesterday by a high authority, is General von Ludendorff's acknowledgment of the fact that the struggle is the key to the door, and must be retained at all costs. But if Ludendorff, the German must make a far-reaching retirement at the most critical juncture of the fighting on the west front.

France is still in German hands after the desperate counter-charge of the Bavarians yesterday, but another count of the Canadians last night carried them back across most of the ground lost, so that the machine guns and the heavy artillery in the rear of the British line. The other German counter-attacks near Gargy and near Bullois, where the Tenth still goes on in the Hindenburg line itself, have also been repeated in the past 48 hours.

Meanwhile another struggle equal in importance to the present fighting, and half the French divisions are engaged in the recent fighting, and half the French divisions are engaged in the recent fighting.

SEVERAL SERVICES

A regular fortnightly meeting of the Civic Committee will be held this evening. The members will be asked to consider the following items:

TURNED CORNER TOO SHARPLY
While responding to the alarm of fire last night, one of the horses attached to No. 2 hose car, fell at the corner of Front and Bridge Streets. The driver, who was driving the horse, was turning the corner a little too sharply. The horse was not injured seriously and no damage resulted.

INCUBATOR OVERHEATED
At 4 o'clock last night an alarm of fire was sounded. The cause for being the over-heating of an incubator at Mr. Cook's premises on Bridge Street west. The service of the fire brigade was fortunately not required. As the result of the incubator becoming over-heated a number of little chickens were destroyed.

OBSEQUES.

JOHN W. HUTTON
One of the largest funerals which has taken place in the Township of the town since the death of the late Mr. John Hutton, a well-known citizen, occurred yesterday.

Parts of the county were present in large numbers, thus evidencing the esteem in which the deceased was held. After a short service had been held at the family residence, conducted by the Rev. A. C. Hoffman, the remains were conveyed to Bethel Church, Belleville, where an impressive service was held. The sacred edifice was filled to overflowing. The pastor, Rev. A. C. Hoffman, conducted the service, and preached an appropriate sermon, referring to an eloquent manner to the departed and his Christian character. Rev. W. P. Wilson of Belleville acted as the officiant. After the service the remains were taken to the Belleville burying ground, where the remains were interred. The service was held in the most appropriate manner to the departed and his Christian character. Rev. W. P. Wilson of Belleville acted as the officiant. After the service the remains were taken to the Belleville burying ground, where the remains were interred.

Are the Four Fruits Used in Making Fruit-Tree

"FRUIT-TREE"

is the only method in the world that is made from the juice of fresh fruit.

It is reported that the British Government will not take Fruit-trees because it is a waste of money to grow them.

On the other hand, the fact that "Fruit-trees" is entirely different from any other method of growing fruit is a fact that is well known to all.

AERIAL ATTACK ON ZEEBRUGGE

Heavy Gunfire From West Indicates a Naval Engagement in Progress

Special to The Intelligence.
LONDON, May 12.—Plans of light inflicting another aerial attack on Zeebrugge were observed during a raid which took the morning of a heavy dispatch from Flushing, Holland, reports later a heavy and continuous gunfire was heard from the west. It is believed that a naval engagement is in progress.

PRESSING THE ENEMY BACK

Special to The Intelligence.
LONDON, May 12.—Since May 1st no word of importance has been heard in Meenopolis, says an official statement issued today. Our Mobile Column operating in the district of the Shatt el Assed and Dalia Rivers have been pushing the enemy back into Jabot Hamra, a rugged which from the west, northwesterly and southeasterly directions were likely to enter into from Bagdad.

Sweden Strikes Liquor Traffic

STOCKHOLM, May 12.—Special.—Sweden has taken a further step in the restriction of the sale of alcoholic beverages. Under a law adopted by the Riksdag, effective January 1, 1913 the present system of selling liquor is extended to cover wine and beer. This means that every consumer will have to be equipped with a pass which his purchases will be authorized.

SPELLED OUT THE ZEEBRUGGE

Light on Their Nerves and Accomplish Great Ends—Thousands

Prisoners Taken by Those Men Who Never Showed Any
Appetite or Liked for War or Adventure—Barely
Worse Than Death

(By Philip Gibbs)
War Correspondent's Headquarters, From Kensington Gardens to the fields around Arment is a fair journey and a bad one, and it gave me a good kick of a thirty yesterday, as a man who used to walk every day through the Old Court suburb, to hear how the Kensingtons had been fighting in this kingdom of inland fire. The Kensingtons did well, says their General, and not only the Kensingtons, but a lot of London men belonging to the little houses in the London district. In all the battles of this war the London men have fought as well as any of our fighting men from what ever nations received from the front. From one end of the front to the other, from the Ypres salient to the Somme, they have held the line and gone over bars and struggled to get through the mud and rain, and proved themselves every time.

LOSE PART OF TRENCH

British Commission Was Impaired by New York
Hearted Enthusiasm

NEW YORK, May 12.—Special.—Arthur James Hall, Great Britain's second son of the war for America, and member of the British Commission accompanying him to the front, received a telegram from the front, in which he was informed that the "whole-hearted enthusiasm" of the British troops was "not shared" by the French troops. The British troops were "not so keen" as the French troops. The British troops were "not so keen" as the French troops.

Arrested on a Serious Charge

(Peterborough Review, May 11)

On a warrant issued by Mr. J. B. Foster, J.P., Newwood, Miss.

Burns, of Montreal, was arrested

Sunday last and brought to Newwood

and placed in the local lockup. The

charge against him was that of obtaining

property by misrepresentation. A registered

letter from the Ottawa Police to the

addressed to Mrs. M. Arnold. She

represented herself to be Mrs. Arnold

and secured the book at Mrs. Arnold's

it appears she had previously visited

the post office and called on the

the post office and inquired for mail

for Mrs. Arnold. Miss Calder, who

was in charge, told her that there were

three registered letters to that address

and as they had not been called for

yet within the usual period they had

been returned to the Militia Depot

at Ottawa. The woman expressed great

appointment, and said the letters were

sent to her by her child's mother.

She said she had told her sister,

Miss Burns, to call for her mail.

She said she had called on the

writer a letter and handed it to Miss

Calder to address to the proper Dept.

at Ottawa and at the same time she

quoted her to let her know at Montreal

if a letter came to her, asking

her to address your letter to Miss

Burns and she will give it to me.

She then addressed her letter to Miss

Burns and she will give it to me.

WINDOW BLINDS MADE TO ORDER

It is but natural to expect that a relief from Contamination and the many ills which it causes, which is so official and so natural to lateral bath, should quickly make many converts.

But its general use has increased so tremendously in the past few years as to suggest other reasons, and there are found in the statement of facts that they feel as if "made over" every morning after an internal Bath.

The situation of the perspiration present in the Lower Intestine gives Nature a chance to work unobscured. And one arises in the morning clear, bright, confident and strong.

Mr. F. E. Smith writes: "Dear Doctor, Your 'Cascades' made a new man out of me at the age of 42. I persuaded my wife to use the treatment and today she is a better woman than ever before. Besides, she can walk for hours without a hitch. Paining spots have become a condition of the past; can eat anything on the bill of fare and drink anything without feeling any ill effects when exposed; hot weather does not cause oppression."

"The 'I. B. B. Cascade' is the most efficient device for Internal Bathing, is simple and explained in detail by Dr. F. E. Smith. Ask for free booklet, 'Why Man of Today is Only Suffering from the Faults of His Ancestors,' by Dr. Chas. A. Tyson, 181 Col. College Street, Toronto, for name."

RAISES FOR ADVERTISING.
The Commercial Appeal and the Baltimore Sun, the two largest advertising papers in the country, have announced that they will raise their rates for advertising space for the year 1917. The Commercial Appeal will raise its rates from \$1.50 to \$2.00 per line per week, and the Baltimore Sun will raise its rates from \$1.00 to \$1.50 per line per week. This increase is due to the high cost of paper and other materials.

THE NEED OF THE HOUR

The whole-heartedness with which the United States Government is taking on the burden of war is clearly defined in an editorial in the New York Sun, which declares that "the business of the world is a financial problem; the greatest of all material war is the financial war in its outward aspect." The editorial points out that the United States has had to deal with this country for all that it can be formulated in Europe. The deficit of the Government can surely be accomplished only by our obtaining certain funds, military coordination of the food, the French and British, and raising certain quantities of food, munitions and men; next conveying these necessities where and where they are required in Europe. The real of the problem is an enormous mass of detail, chiefly technical with which the experts of the War, Navy, Treasury and other departments are charged; some of it eluding the routine methods of the technical expert and calling for other special.

"Coordination of plans with the French and British, is, we hope, under way, thanks to the visit of the French and British plenipotentiaries. The business of procuring men and munitions is still in the preliminary stage, but the progress of the Liberty Loan subscription and the assurance of the passage of the Military Service bill indicate that this part of the problem may now be left to the technicians. Raising food is largely a matter of raising the extra labor to farm the land; largely also a matter of economizing on home food consumption as indirect means of producing a food war surplus. The continued indirect transfer of foodstuffs from this country to Germany by our exports in Germany's neutral right bar is a loose end of the situation to be dealt with by embargo, which has already passed the Senate. Food is a partly unsolved problem, but we are progressing with it."

"Conveying our resources, to the next year is the one, yet wholly unsolved difficulty of the great task. The United States has the greatest increases enormously the difficulties of supplying materials and foodstuffs to the Western Allies. Even now, it threatens to be a heavy burden to the whole Canadian people."

Current Comment

"The price of bread has been advanced to the new high record price of 10 cents per bushel. Well, we have free wheat now, you see."

In reply to a question in the Baltimore Sun, the Honorable Charles Boaz Law, said to a group of men assembled in the Senate, that that nation would never see the day when it would be able to produce its own bread. He said that the United States was not a self-sufficient nation, and that it was dependent on other nations for its food supply. He said that the United States was not a self-sufficient nation, and that it was dependent on other nations for its food supply.

QUEBEC AND THE WEST

While Liberal politicians and press in Quebec are demanding a general election, it is interesting to note that protests against such a measure are being made by English-speaking Liberals of Ontario and the West. The Winnipeg Tribune, for example, says that Mr. E. Richardson, a former Liberal member of Parliament, and who was the Liberal candidate in Macleod, Alberta, in 1915, is now in the United States, and is doing his best to convince the Quebec, English-speaking Liberals, of the propriety and unpopularity of such a move. It is deemed that further extension of the present Parliament on the principle that "if it is uncomfortable in the frying pan it would be good to jump out of it" would do more to injure the Liberal cause than to help it.

The present leaders of the "Dominion" Liberal party have already demonstrated, during their previous 12 years of office, their incapacity and inactivity, in both legislative and administrative, in too many instances, and at such appalling cost to the country, that they have lost the confidence of the people. The result of their blunders can be felt everywhere. The Liberal party has been reduced to a mere shadow of its former self, and its future is uncertain. The people are looking for a new leader, one who can lead them out of their present predicament.

The Tribune says that it has found a good deal about the desirability of a "National Government," but that it has seen "no serious effort to identify, or bring out, the real issues of the day. The Liberal party has been reduced to a mere shadow of its former self, and its future is uncertain. The people are looking for a new leader, one who can lead them out of their present predicament."

"Early these circumstances the only conceivable results of an election in the Dominion of Wales, the present Dominion Government are not likely to be able to do so. The Liberal party has been reduced to a mere shadow of its former self, and its future is uncertain. The people are looking for a new leader, one who can lead them out of their present predicament."

HE GOT THE PACKAGE

The following extract from a letter recently received by Rev. A. M. Hulet of this city, from E. W. Plafard, at the front, draws the faithfulness of the spiritual authorities in forwarding mail. The extract says:

"By way, I have a little news for you. You posted a parcel to me in November of last year. With it, went to France, was sent to England, and was finally sent onto me from the Returned Postal Office, London. I received it about ten days ago, so you see it was not late after all!"

The letter was postmarked London, England, April 16, 1917.

ENLISTED FOR SERVICE

Admiral Smith, who has tendered his resignation as a member of the City Council, has done so on the fact that he has enlisted for overseas service. He will be connected with the first branch of the service in some capacity.

WILL DELIVER AN ADDRESS

Under the auspices of the Canadian Club and the 30th Anniversary of the Club, on Friday evening at the Assembly room of the High School, in the City, Lieut. A. C. R. Trivet will deliver an address. No admission fee. Lieut. A. C. R. Trivet spent twenty months in the army as a private, and until his appointment as an Overseas Secretary with the Y. M. C. A. in France he was transferred to the Y. M. C. A. staff, and for some time conducted the highest foreign district station. Lieut. Trivet carries a bullet in his arm which nearly has cost him his life. Three men were standing there, and the bullet that carried with him killed one man and would have penetrated his lung had he not gotten at that moment.

classified damage from the city owing to the city in some way being done to a small island on the river bank above he has a place of loss.

Major Ketchum—We acquired that island through the law of sale. The city cannot be held liable in any way. A later should be decided by Mr. Tupper in regard to the matter.

This was agreed to.

Mayor Ketchum said a claim for damages owing to the city received an alleged defective wall.

This matter the Mayor stated would be attended to by the company, the city is insured in.

WANT MORE WAGES

The request of the members of the City Department for an increase of wages from \$60 per month to \$75 per month was referred to the City Committee for consideration.

CITY AUDIT

Mr. F. F. Frederick wrote the Council that the audit for 1915 was ready to be printed.

The clerk was authorized to have the same printed after the Mayor had explained that it has been the custom to give one newspaper the printing of the audit and the other the list to the other office.

An estimate was presented that it would cost \$400 to place a tarpaper on Bridge street west.

Referred to Public Works Committee.

ORANGLITHIC WALK

An estimate was presented of the cost of GRANOLITHIC WALK to be built on the north side of Catherine street between Forest and Columbia street, adjoining City Church. The cost would be \$220.

THE MATTER WAS LEFT IN THE HANDS OF THE CHAIRMAN OF PUBLIC WORKS AND THE OFFICIALS OF THE CHURCH TO HAVE THE WORK DONE.

An account of \$20.72 was ordered to be paid to Mr. H. Taylor, if it is ascertained that it is the proper amount for the collection of garbage for two weeks.

On motion the Committee rose and reported. The report was accepted and adopted.

ENQUIRIES

Ald. Parks—What was the cause of Mr. Henderson's resignation?

Mayor Ketchum—He was ill.

Ald. Woodley—Mr. Henderson stated that it was owing to his health that he resigned.

Ald. Whelan—Mr. Henderson stated that that was the cause. As present he is engaged at some work, he may have to discontinue going to his work.

Ald. Parks—If I heard he gets better he did not get the management of the water works, and had some trouble with a city official.

Several of the Aldermen stated that such was not the case.

Ald. Robinson asked if the present City Engineer was capable of handling water works, trucking work, building, installing of electric pumps and if he had presented credentials as to his ability to do this work?

Ald. Whelan—The City Engineer was hired to superintend the Public Works Department. He has looked after sewers in other places and also has had experience in road building and installing of water works.

Ald. Robinson—We should have an engineer who was capable of superintending the installing of electric pumps at the Pump-House and other city work.

City Engineer, Mills, who was present, in reply, stated he only gave verbal evidence as to his ability as an engineer.

Ald. Woodley asked Mr. Mills if he could produce testimonials.

Mr. Mills—Yes.

Mr. Robinson—I am only acting as Alderman in this matter.

Ald. Parks—When is the clock on Esplanade going to be opened, as it is closed up?

Ald. Whelan—The trouble is from Bates' material, and it was examined by the speaker and the City Engineer recently and he is attended to.

Ald. Parks—Why can't residents get water on Jones Street?

Major Ketchum—Our hands are tied because the sewer will not produce 10 per cent. of the cost.

Ald. Parks—A sidewalk on Burton street should be constructed. It is a board walk and is delapidated.

Ald. Whelan—It will attend to the matter.

Ald. Parks—What about the tramp dog, and would not the city be liable if a person was bit by such a dog? There are a number of dogs in the city that are not owned, and the city gets no taxes from same. Owners of dogs should keep them on their own premises and not allow them to run loose about the street.

Mayor Ketchum—We can consider this matter and have the By-Law amended if necessary.

10, 20, 50 and 100 lbs.

Ald. Platt—Near the Canning Factory on Victoria street, there are a number of stumps on the street. Will they be removed?

Ald. Whelan—I will.

COAL SUPPLY

Ald. Platt—In regard to the coal supply for next winter, the city should do something. Other cities are taking this matter up and we should do so.

Mayor Ketchum—There was no city that was better or more cheaply supplied with coal than Belleville was last winter by our coal dealers.

Ald. Platt—In Toronto, coal is being delivered at \$9 per ton where it is much dearer in Belleville.

Ald. Parks—This is a matter we should look into.

THE FOOD PROPOSITION

Ald. Platt—The food situation is serious, and something should be done by this Council—first pass a motion and have the same forwarded to Ottawa.

Mayor Ketchum—Can the Government control this situation. The cause of producing has greatly increased.

Ald. Platt—England and Australia has controlled the situation. The Government of our country should be able to do something. This was not a political matter but one in which all were concerned.

Mayor Ketchum—Great Britain has at a minimum price, which can be increased. Food stuffs in the United States are as high as it is in Canada, Brazil.

Ald. Parks—If it is true, what we feel that there is enough wheat stored in Canada to do for two years.

Ald. Whelan—The wheat coming will be the stock exchange which is falling the market. It is unnecessary for the Government to take hold of it.

Mayor Ketchum—The British Government is not being done up as has this matter it may not amount to much.

CAN-ADIAN Chalmers

Make your own tests

WHAT will the Chalmers do? Prove that to your own satisfaction. Examine it, try it, put your pet hill. Throttle it down. Jump into speed. The acceleration of the motor will amaze you.

It was a Chalmers that made the famous 24-hour run through the dense traffic of Chicago. On high gear. Without stopping the engine. Imagine the stop! The slowing down, the dodging in and out of traffic. The Chalmers went 356 miles—14 miles in the gallon of gasoline. A 24-hour run was the best previous mark.

It was a Chalmers special that won the Giant's Despair Hill Climb last October. Four 12-cylinder cars, racing creatures, and many costly cars. This sort of driving proves the soundness of the Chalmers. Proves its wide flexibility. Proves the cooling. Proves economy.

—Difficult to Formulate, and of No Practical Service to Nation, He Tells the Reichstag

BERLIN, Jan. 16.—(Special.)—One of the most vigorous and eloquent of the men who have been spoken against he has yesterday spoken the Reichstag since the outbreak of the war, the imperial German chancellor yesterday bluntly refused to enter into a discussion of Government policy, and he made his interpretation to the Conservatives and Socialists, Dr. von Bethmann-Hollweg remarked that these called for a new program, a new program, the announcement of which would be at the present time not only

himself to be exasperated by pressure from the nation, and that he would not allow any party or clique. The real interests of the nation, he felt, were not to be sacrificed to the demands of a party which he had imposed on himself in the face of continuous clamor since December, 1914, and that he would not allow the moment when he was aware that such a course would be endorsed by the nation at large, which constituted the nation's conscience, to be used also meant the views of the majority of the members of the Reich-

CHAS. J. SYMONS

"THE STORE WITH THE ELECTRIC MAN"

GARDENING GOSSIP FOR THE AMATEUR

No matter how much the middle two weeks of May might be chosen for planting the garden truck and the potatoes should be in by about April 25.

Good man in Toronto wrote a great many people with nothing more than their good intentions and give them as this year purchasing food. A little expert information on just how to plant a garden that will produce the best results may therefore not be useless.

"The present food situation of the world is one which necessitates the increasing of food supplies by every means at our command," says Mr. C. Johnston, the vegetable expert of the Ontario Department of Agriculture, in a pamphlet which he has just prepared on vegetable growing, with the special object of assisting amateur gardeners that they may make a success of their enterprise, and also to encourage others to take up the work.

"Vegetables, he says, form an important part in the everyday diet of most individuals. They should have a more prominent position in the daily food of the average human."

In planting a garden he suggests that the sort of vegetables appreciated by that particular family should be chosen.

The first important step on planting a garden is soil preparation. According to the officials of the Department of Agriculture this is a self-master this year, as the ground the Province office is working up each well.

City dwellers are not all born in vegetable gardens, and many of the fallow back gardeners are doing a lack of knowledge as to how to prepare the soil for seedling. The ground today is in excellent shape for digging. A spade or digger should be used to the firm stable soil to twelve inches, and turn over the soil that the bottom will be brought

to the top. The best method to follow is to dig one foot about eight inches wide the full width of the garden, then place the second ditch between the first one on top of the first, this will leave only a trench in which manure either well rotted or fresh should be placed. This should be tramped in lightly and two more rows of soil deposited on it. By following this method from four to six inches of manure may be placed ready for the plants to use. Manure may be secured from "livery stables" or from those who deliver for a small sum. The next operation will be that of breaking. Considerable care must be taken in order that the lumps are broken up and that a level surface is left to be planted, it is never advisable to dig more of the garden than can be raked the next day. With an ordinary rake go over the soil roughly, either breaking up the lumps or dragging into a furrow or on one side of the garden. By following this "white" or "dry" raking which should thoroughly loosen the soil, fill in any low spots and remove any weeds or stones, the garden should be ready for seed planting.

It should be noted by all first time gardeners that not all city soils will produce vegetables of first-class quality the first season, so much more attention is given. In some districts where clay has been excavated to make the cellar and has been dumped on the back-yard, this would require considerable attention and sifting up to make into a garden soil. There are many city soils in city backyards that would require a great deal of work to properly fit them for vegetable growing. Large quantities of manure would have to be applied and even in the, however, there are many city backyards which contain sufficient vegetables for the home with-out serious trouble.

SUFFERED FROM PARALYSIS FIFTEEN YEARS AGO

Used Dr. Chase's Nerve Food on the Advice of a Friend, and With the Greatest Benefit

Bethel, Ont., May 10.—The present test on my condition for the treatment of diseases of the nerves is whether it is effective in cases of partial paralysis.

Paralysis is the natural result of neglected nervous diseases. Nerve tissue which are dead can never be replaced. For this reason complete cure of paralysis is impossible. Dr. Chase's Nerve Food is effective, however, in restoring the nerve cells which are still alive.

For this reason it has met with such great success in the cure of nervous system and has been the cause of the greatest relief for partial paralysis.

There is a plenty of evidence right here in your home town. Watch this paper for daily reports of cures of

Why, it is fairly dead, said Chickie to little Ned and Polly Ann. The little I will tell you a story about

THE MARTIN CHICKEN.

Once on a time there was a fine family of chickens living in a nice chicken yard in a charming town, and the chickens belonged to a dear little girl named Mabel.

Shirley was very fond of the chickens she had given all of them new names. She remembered all the names, but there were Pussie and Puffie and Chickie and Pippie and many more.

One of the girls was little Mabel. She was given that name because she was so much like the girl named Mabel. She was given that name because she was so much like the girl named Mabel.

JUST THINK how convenient

your kitchen would be with the McCloy's Cabinet Gas Range in it!

No stopping necessary—cooking top, broiler and baking oven, and warming closet, all at the right height.

The various parts—aluminized enamel, stainless steel, cast-iron, enamel, brass—may be wiped over with a damp cloth; this means constant cleanliness maintained with the least possible effort.

A range having ample capacity, compact built, equipped to do all classes of cooking quickly and well, it is a great labor and time saver.

Chemically Self-Extinguishing!

What do those words mean to you? They mean greater safety in the home. Surely something that appeals to you!

Perhaps you have noticed those words and the notation "Self Exting." when you look on our new "Silent Partner" match boxes. The "Silent Partner" of all matches contained in these boxes has been improved, it is soaked in a chemical solution which renders them dead wood. If they have been lighted and blown out the longer of FIRE FROM EXTINGUISHING is hereby reduced to the greatest minimum.

country will permit, and all males between the ages of 18 and 45 will go to the front. The law will be enforced by the military police. Selection will not be made by lot, as in the case of the Germans, but by having regard to the accuracy of the census, the number of children, the number of dependents, and the number of persons in the household, will be regarded as the basis of selection. There have been no protests.

MAINTAINING MEN, DRAFTED
The law will have another feature. It is that married men would be exempted, but it is understood that under the German law, which is the basis of the new one, it will need to be a question of the number of children. The exemption of dependents. Thus an unmarried man with a wife and three children depends upon his wife for support. A married man of military age, is liable for his wife and children.

Someone has said that fools learn by their own experience and wise men by the experience of others. I am sure that is true. I have seen many a man who has been burned by the fire of passion, and he has learned his lesson. He has learned that passion is a dangerous thing, and he has learned to control it. He has learned that passion is a fire that can burn out of control, and he has learned to keep it under control. PAID TO INVALIDS ON THE BRIDGE

MONTREAL, May 22.—Several hundred people assembled at the Windsor station to welcome a party of wounded soldiers invited from the firing line. There were nearly two hundred invalided men on the special train, including British Mounties and transporters from Kingston.

The men who came across on the same boat as Sir Robert Gordon, said that the Canadian Prime Minister had won the hearts of the "Warrior" soldiers. He did not spare himself as a speaker. He had not joined in all games, and seemed to enjoy every game, as good, time, and fun. One day Sir Robert won a thousand dollars, and was delighted with his success.

THIS OINTMENT POSSESSES POWER TO HEAL THE SKIN

Two Cases Which Prove the Extraordinary Healing Power of Dr. Chase's Ointment

London, Ont., May 22.—The wonder of Dr. Chase's Ointment is wonderful. It has cured many cases of skin disease, and the results are remarkable. Many people who have used it have written to Dr. Chase, telling him of their success.

One of the cases which prove the extraordinary healing power of Dr. Chase's Ointment is that of a man who had a severe case of skin disease. He had tried many different treatments, but nothing had helped him. He then tried Dr. Chase's Ointment, and after using it for a few days, he found that his skin was beginning to heal. He continued to use it, and after a few more days, his skin was completely healed.

On Active Service

With the British Expeditionary Force in France

Dear Mr. Editor: I am writing to you from the front. I am a member of the British Expeditionary Force, and I am on active service in France. I have been in France for some time now, and I have seen a great deal of the fighting. I have seen the British soldiers in action, and I have seen them win many battles. I have seen the British soldiers in action, and I have seen them win many battles.

I have seen the British soldiers in action, and I have seen them win many battles. I have seen the British soldiers in action, and I have seen them win many battles. I have seen the British soldiers in action, and I have seen them win many battles.

Do you like to Back a Stove?

Isn't it a mussy, dirty job?

And it has to be done every day in the year, too.

Blackening stoves is unknown when you cook the HYDRO way.

Our Electric Ranges are finished in glossy black enamel and nickel. A little oil applied with a soft rag is all that is necessary to keep an electric range in spotless condition.

Won't you let us demonstrate this and the many other labor-saving features of an electric range in our office?

What To Do To Cross Line

RIGHT LAW IN FORCE TO-day Regarding Migrants—Heavy Penalties.

OTTAWA, May 26.—To cross the border to the United States today and tomorrow is a Canadian citizen of age of eighteen and forty-five good in his or her title, the good of a photograph, an immigration inspection, four reputable citizens as references, a Justice of the Peace or Commissioner of Oaths, a "back stamp" and either a Chief of Police, Clergyman or Government official. The Government has proclaimed an

immigration officer, who services "right" citizens towards the "safety" of his Majesty, and his allies in the present "prevailing way," to obtain from an immigration inspector a permit to go to the United States.

If such person attempts to cross the border to the United States, he is liable to a fine of \$2,000 or five years' imprisonment, or both.

The Requirements

Technical agents and Postmasters can provide the following: (1) A permit to give a permit for a permit. The permit, in filling the form, has to give his name and address, where born, his age, whether British by birth or naturalization, how long he has been at his present residence, his destination in the United States, the purpose of his journey, his height, weight, color of his hair and eyes, and his occupation. He has to affix small photograph of himself, to both the form of application and the form of landing certificate. He has to power be provided an authorized notary to the correctness of his statements. His application has to be signed by himself and a bank manager and also by either a Chief of Police, Clergyman or Gov-

ernment officer. It must give the name of four reputable citizens as references.

When satisfied that the traveler is not seeking to escape military service the Immigration Commissioner is authorized to grant the traveling certificate. The traveler is warned to keep it about him and produce it when called for. He is also advised to keep his certificate after he returns. The production of evidence of good faith when he wants to make a second journey south.

Arrangements for Border Residents

There will be special provision made for people living on the border in such places as Windsor, who daily cross to work in places in the United States, such as Detroit. Commercial travelers may have their certificates obtained so that they may not have to get a fresh permit for each of their frequent trips.

The law is now in force. For the first days immigration officials will be in the direction. Within a week the requirements will be rigidly enforced upon.

Ford SALES

115,000 Ford Cars have been manufactured in Canada by the Ford Motor Company of Canada, Limited. This corporation—the largest motor factory in the British Empire—is capitalized and managed by Canadians.

Its purpose—to produce the utmost in motor car values at the lowest possible price-- brought an enormous demand for Ford Cars. This demand made possible an enormous output and this in turn affected great savings in material costs, factory machine methods and labor operations, which in turn further reduced Ford prices.

This is the simple reason why there are so many Ford Cars in Canada today and why the Ford Car is known everywhere as **THE UNIVERSAL CAR**

Ford SALES are based on Ford SERVICE and Ford SATISFACTION. The Service includes not only the all-year-round reliability of the car, but the convenience of having seven hundred well-equipped Ford Service Stations scattered throughout Canada, ready with repairs, supplies, accessories and A-1 mechanical service. Ford SATISFACTION is something every Ford owner gets, in addition to Ford SERVICE. Just ask any man who owns one.

RECENT BRITISH ADVANCE ON WESTERN FRONT

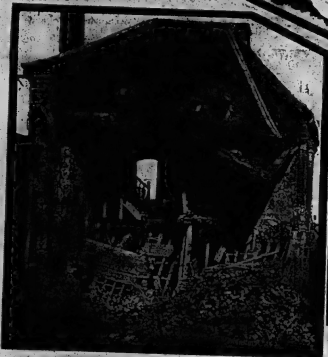

WHERE THE ALPINE CLUB WILL CAMP

THE original Camp of the Canadian Alpines Club will be held next July in the beautiful region of the Canadian Rockies—the mate camp pitched on an altitude of 5,700 feet, and the headquarters camp at Hector, on the Canadian Pacific, 11,454 feet, by Mount Peak—10,560 feet, and north under the spectacular oblique of the "Peak", 8,000 feet. A subsidiary camp will be pitched close to Lake O'Hara, at an altitude of 8,400 feet. It was the first of the lake since J. S. Sargent, the first of the lake since landscape painter, came last summer, finding in the peaks and the lake surrounded by its emerald waters, a scene for some magnificent scenery. The lake is some rugged in character, and the lake known Lake Louise, but is considered as the lake who have seen it to be just as beautiful. From the snow line of the lake, the lake is 10,165 feet, and the lake is 11,241 feet, Mount Victoria (11,241 feet), and several other peaks, and the lake is a hanging valley directly below the lake, at an altitude of 7,350 feet.

FARMERS HAVE RESPONDED
Labour shortage and unfavourable weather conditions notwithstanding, reports from the various provinces indicate that the farmers of Canada have enthusiastically responded to the appeal of the Department of Agriculture for a greater harvest this year.

Since last harvest the Dominion Department of Agriculture has been pressing its propaganda to secure a greater crop of foodstuffs to meet the needs of the army and navy. The words of the Seed Grain Commission is best one of the many forms of assistance rendered.

By means of advertisements in all parts of Canada a special publication was made for a purpose of increase in the food supply both for home and overseas. Not only farmers was this appeal addressed, but urban dwellers were called upon to help on the land and to augment the general store of food by growing vegetables and fruit.
